CATEGORY INTELLIGENCE REPORT

CATEGORY INTELLIGENCE REPORT

- ▶ Built with our own proprietary data, the *Category Intelligence Report* analyzes hundreds of thousands of products selling on Amazon, in order to estimate monthly sales volume and revenue
- ▶ Using that data, we are able to analyze each product category and determine which have the most potential for both seasoned and beginning sellers alike!

CATEGORY (WITH ESTIMATED MONTHLY REVENUE)

- ▶ Beauty (**Hot Category!**): \$451,519,058

- ▶ Tools & Home Improvement: \$390,613,150
- ▶ Toys: \$272,981,248

SUMMARY

Monthly \$ Revenue vs. Category

SUMMARY

Monthly \$ Revenue

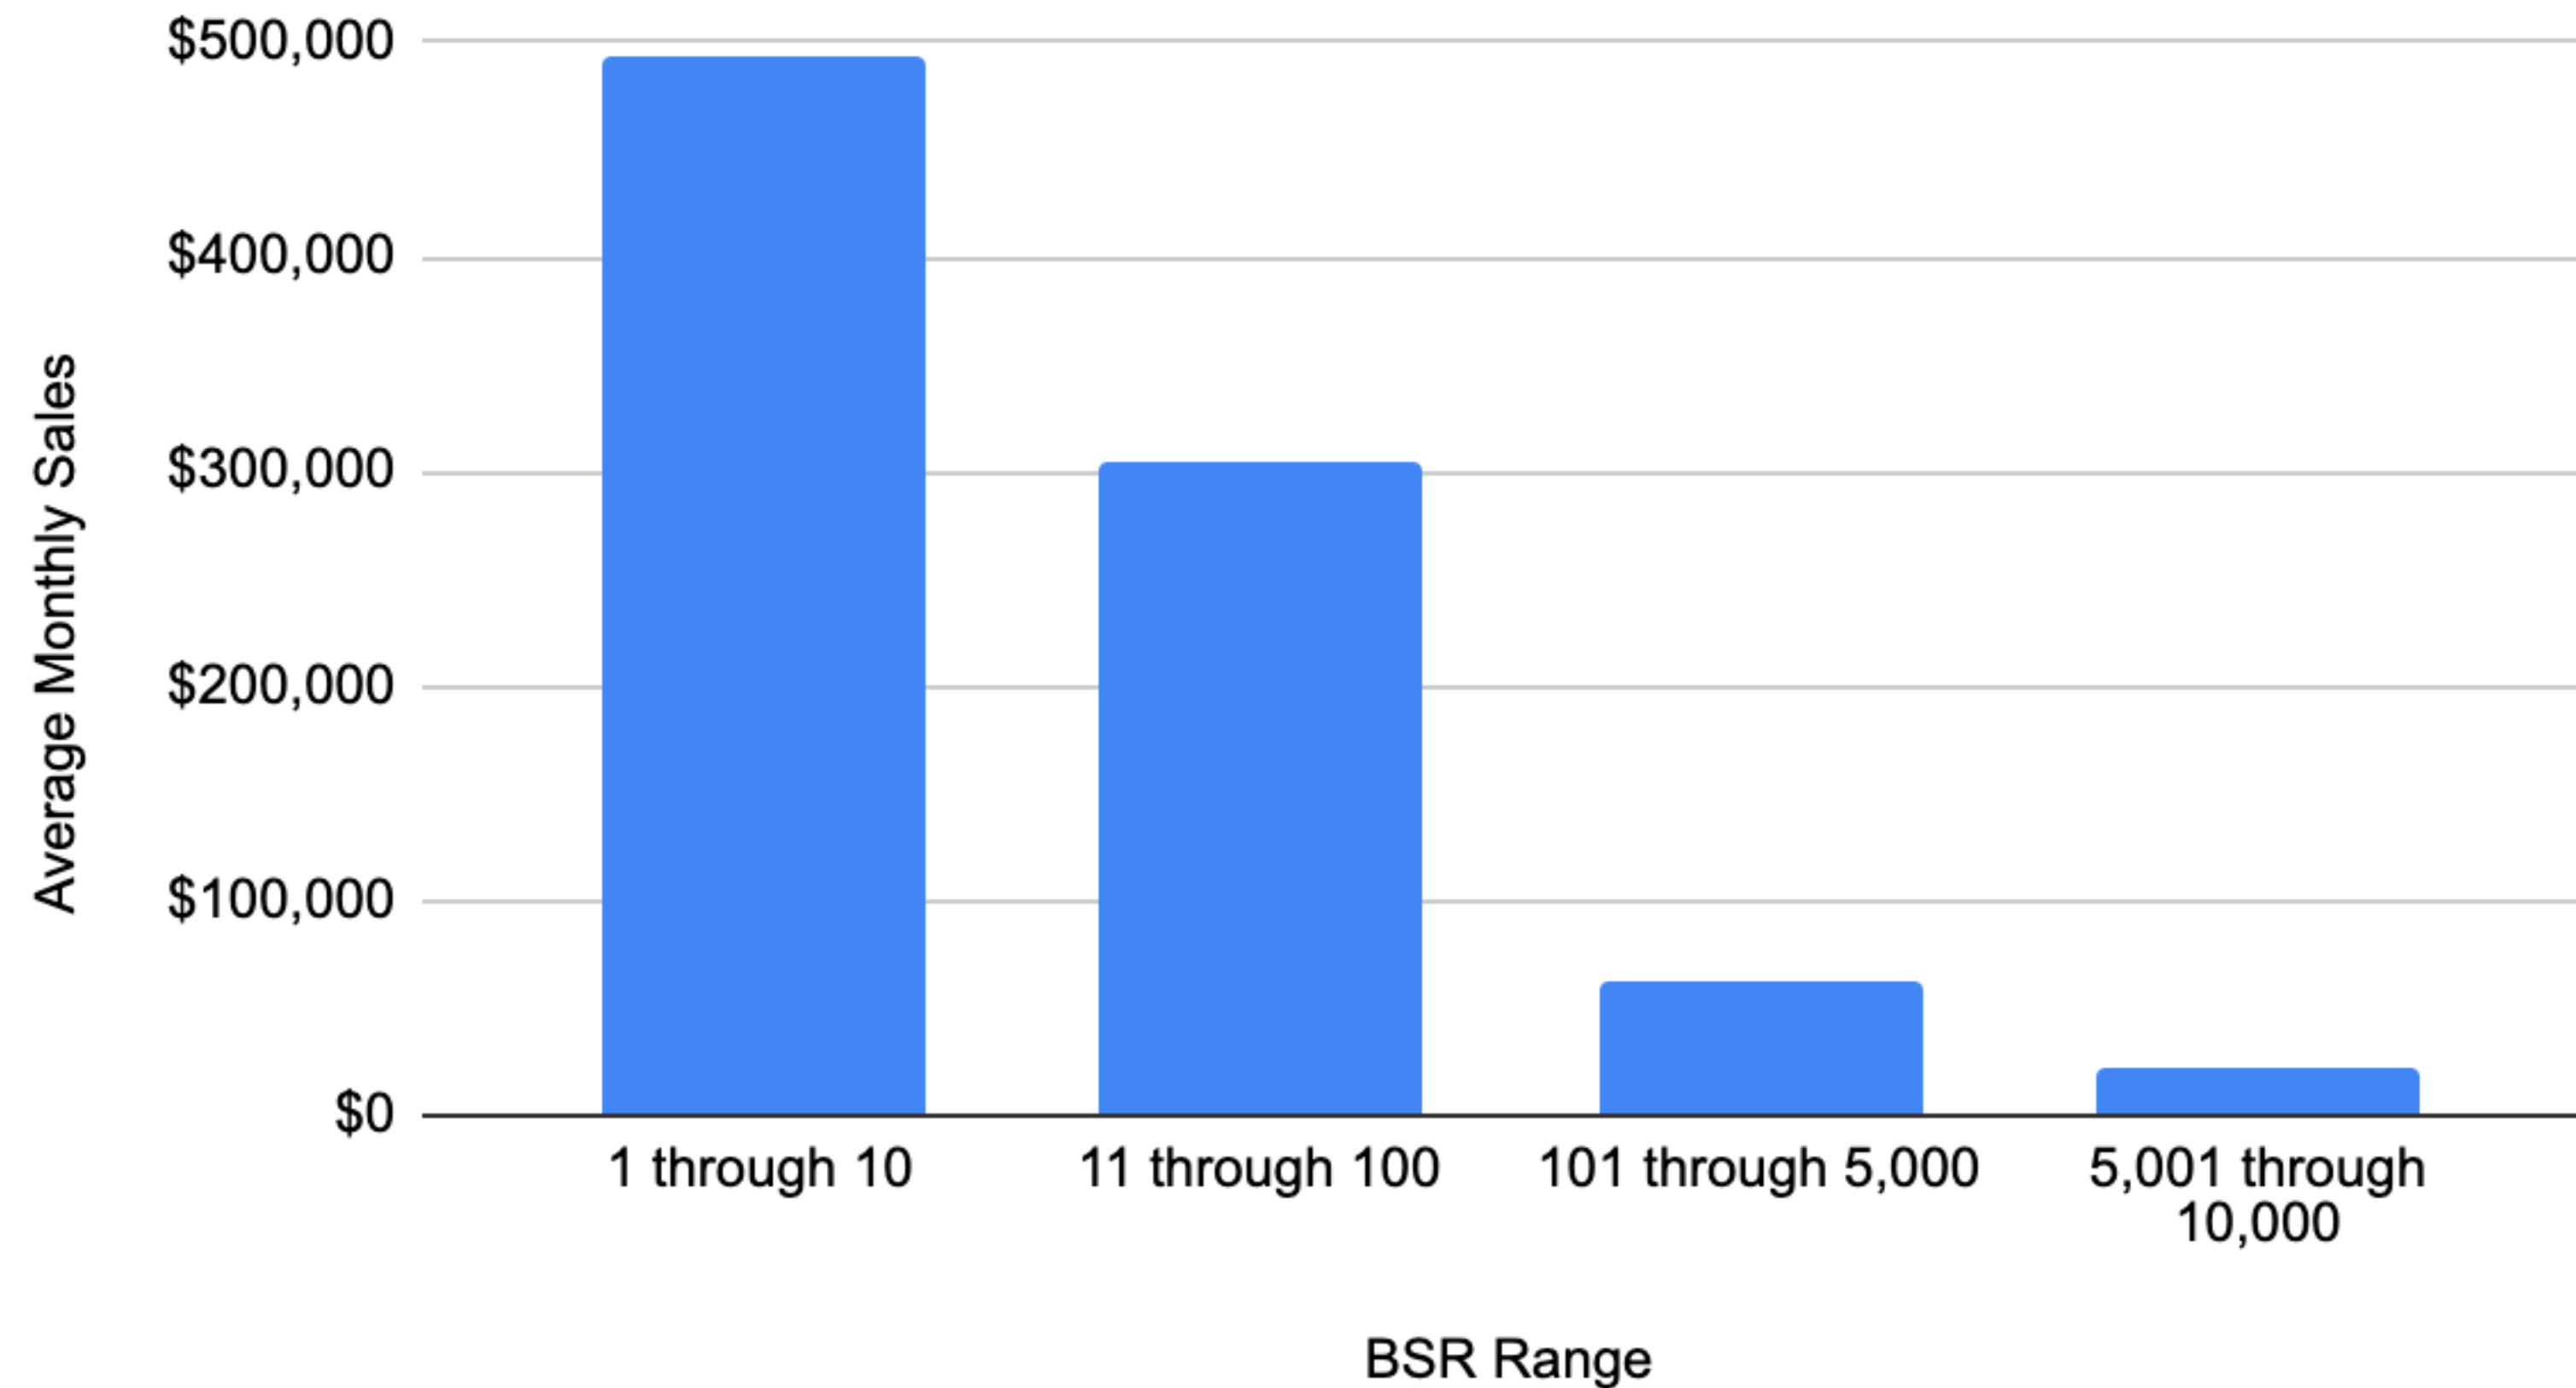

BEAUTY (HOT CATEGORY!)

“Top selling brands in Beauty bring in some of the highest monthly revenue of all categories on Amazon, plus they have some of the highest profit margins as well. If you are someone with the resources to go up against a big brand, a single successful product could result in a million dollar business.”

- Jason Katzenback

HEALTH & PERSONAL CARE (HOT CATEGORY!)

“This category requires approval from Amazon and can be pretty competitive, but if you are able to sell in Health & Personal Care you have the opportunity for incredible results. I consistently meet more and more sellers with multi-million dollar businesses selling in this category than in any other.”

- Jason Katzenback

HOME & KITCHEN (HOT CATEGORY!)

“After researching hundreds if not thousands of potential products, Home & Kitchen consistently shows up as one of the best categories to start selling in. Monthly revenue is widely spread out among the various BSRs in this category, meaning that any product in the top 10,000 can bring in significant revenue; even for new sellers.”

- Rich Henderson

TOOLS & HOME IMPROVEMENT (HOT CATEGORY!)

“This is a true hidden gem of a category. Even though top selling products may not make as much as those in other larger categories, products even in the 5,000 to 10,000 range bring in plenty of sales each month to start and grow a business with.”

- Mike McClary
